Finger nail clippers

Finger nail file

Toothbrushes

Mini toiletries

Duct tape

Crazy glue

Mini sewing kit

other

Parents arrive before the event to decorate their vehicle in coordination with our theme of study, California rivers, farmers, gardens and invertebrates. Students will dress as their favorite garden insect and walk from vehicle to vehicle collecting items that parents hand out. A huge Huzzah to parents for collecting these much needed items for ARTA who as an earth friendly and wholehearted company promise to give back to the earth, river community and boaters via these collections. River guide, Cortni Haislet will be here on behalf of ARTA to collect these items from the students. The task of distributing these items will be in thanks to many river guides and other ARTA family and friends.
